## LENS INFORMATION

LENSES

GENERAL INFORMATION

**Satin Ice Clear (SIC):** Frosted clear acrylic with a "sandblasted" textured finish and appearance. Provides impressive lamp image diffusion with good light transmission and a soft glow. Used in applications where aesthetics and fixture efficacy are of high importance.

**Satin Ice White (SIW):** Frosted white acrylic with a "sandblasted" textured finish and appearance. Provides excellent lamp image diffusion with medium light transmission and a very soft glow. Used when aesthetics are more important than fixture efficacy.

**Linear Prismatic (LP):** Clear acrylic with linear micro prisms (approximately .015 height). Combines adequate lamp image diffusion with very good light transmission. Used to maximize fixture efficacy while maintaining some lamp image diffusing properties

**Clear (CL):** Clear acrylic - Provides no lamp image diffusion - Excellent light transmission. Ideal for upright dust cover applications or to maximize efficiency while still utilizing a lens.

LENS TYPE	Material	Lamp Image Diffusion	Light Transmission
Satin Ice Clear (SIC)	"Clear" Frosted Acrylic	Good	Good
Satin Ice White (SIW)	"White" Frosted Acrylic	Excellent	Average
Linear Prismatic (LP)	Clear Acrylic	Average	Very Good
Clear (CL)	Clear Acrylic	Poor	Excellent
