

KATRINA

Circular Dual Distribution Luminaire

KATRINA Circular Dual Distribution Luminaire

Our circular direct and direct/indirect luminaires, KATRINA offers elegant architecturally pleasing design while delivering efficient and even light distribution. Constructed of a single piece acrylic lens, aluminum housing, integral driver and multiple LED color temperatures and custom lumen output.

Suspended Horizontally with aircraft-cable or surface mounted direct and offering optional two circuit switching capability, KATRINA produces dual continuous rings of light from a .625" protruding lens within a 6" tall housing and 3.25" profile. Available in both 2', 3', and 4' nominal diameters.

Construction:

- 6" tall aluminum housing
- Single piece seamless frosted white acrylic lens
- available in nominal 2', 3', or 4' diameters

Performance Optics:

- Single piece vacuum formed drop lens to make it stand out from it's competition
- Direct/Indirect option available

Electrical:

- Custom User Specified Lumen & wattage output - available (CLO)
- Optional 1% dimming, emergency, dual circuit and sensors available
