

# MADELINE

Dynamic Free-Form System

# MADELINE Dynamic Free-Form System

## PROFILE SIZES

1 5/8

A creative and versatile luminaire, MADELINE is sleek and beautiful as a standalone fixture or let your imagination run free to design shapes, circles, and ovals able to fit any space. Using uniquely illuminated convex and concave radial sections, Madeline easily generates dynamic, flowing undulations. The continuous run option allows the creation of curved shapes of efficient illumination by utilizing the precision-engineered connecting hardware.

Constructed of heavy gauge extruded aluminum housing and featuring our highest quality precision machined aluminum end-caps.

A variety of configurations allows MADELINE the flexibility to be utilized in applications such as: offices, corridors, hospitality or retail establishments.

### Construction:

- Extruded aluminum housing
- High quality precision-machined aluminum end-caps
- Available in nominal lengths at 30°, 60°, 120° arcs
- Available in 2', 4', 6', & 8' straight segments

### Performance Optics:

- HLO (High Lumen Output) and SLO (Standard Lumen Output) for tailored wattage
- Refracting diffuser for smooth distribution and increased uniformity

### Electrical:

- Custom User Specified Lumen & wattage output - available (CLO)
- Available in (SLO) Standard Lumen Output
