

NATHAN

Indirect Luminous Ledge

NATHAN Indirect Luminous Ledge

PROFILE SIZES

525

MOUNTING TYPES

Wall
Mount

Inspired by the architectural maxim, "Form follows function", the strength of NATHAN is the purposeful cove-lighting capability encased within a solid sleek modern shroud.

NATHAN's profile dissolves like a horizon line into any interior design-scape, yet still delivers a strong kick of forward throw of evenly distributed illumination into the space. Available in T5, T5HO or LED light sources.

Suitable for wall mounting in any interior application, such as: retail, restaurants, hospitality, office lobbies and institutional settings, or use as a window trimming or illuminated ledge effect. NATHAN enhances any space well as a gorgeous tribute to architectural principles, energy efficiency and lighting design integrity.

Construction:

- Heavy gauge extruded aluminum housing
- 1/4" thick precision machined aluminum endcaps
- Quick-Connect (QCS) tandem wired as standard feature for easy thru wiring configurations when installing continuous runs.

Performance Optics:

- Available in Wide or Narrow distribution

Electrical:

- Custom User Specified Lumen & wattage output - available (CLO)
- Optional 1% dimming, emergency, dual circuit and sensors available
